New to the aerosol industry or wishing to increase or refresh your knowledge of current aerosol technology?

Then the Aerosol Association of Australia's one-day '**Introduction to Aerosol Technology**' **Training Workshop** is for you!

Delivered by experienced and respected local and international aerosol industry practitioners, the course will leave you with a greater understanding of the components that make up this unique packaging solution, how aerosol technology works and, importantly, what affects its performance.

We are especially pleased to welcome several guest overseas speakers for this year's event including

- Paul Jackson, Regulatory Affairs Director, British Aerosol Manufacturers' Association
- Benjamin Margot, Chief Customer Officer, Pamasol Willi Mäder AG
- Christian Ritz, Chief Operating Officer, Pamasol Willi Mäder AG
- Paul Sullivan, Managing Director, DH Industries Ltd

Make sure you don't miss this unique opportunity!

... and don't forget our special 'Industry Challenges & Insights' seminar the following day (discounts apply if you register for both days!)

Course topics

Our experienced industry speakers will cover the following topics:

- **Tinplate and aluminium cans** – how each are manufactured and decorated, and their benefits and performance considerations
- **Valves / actuators** – how valves work and how the choice of valve can affect spray performance
- **Propellants** – what propellants are used in aerosol products and their advantages, pressure considerations and use in formulations
- **Formulation considerations** – generic formulations of common aerosol products and the choice of actives, solvents and propellants
- **Aerosol production** – including layout and safety considerations
- **New developments in filling technology** – an introduction to the latest developments in filling technology and equipment
- **Aerosol Regulatory Overview** – a brief introduction to the key regulatory requirements for aerosols (with special presentation by Dr Paul Jackson of BAMA)

Who should attend?

The Workshop is intended for anyone working with aerosols in an **operations, laboratory, account management or technical** role. It is ideal for those who are new to the industry or who wish to update or increase their knowledge of aerosol technology and developments.

Course venue

The course will be held in Room 2305 (enter via level 24), Macquarie University City Campus, 'Angel Place' building, 123 Pitt St (corner of Angel Place and Pitt St), Sydney, NSW 2000. Registration and all breaks will be provided in the networking space outside this room.

Close to the Martin Place metro station and Wynyard train station, our venue for 2025 offers state-of-the-art presentation technology and networking facilities.

Fees (all \$ incl. GST):

\$525 for Association members - 27 August Workshop only*

\$795 for Association members - including 'Challenges & Insights' seminar on 28 August*

\$795 for non-members - 27 August Workshop only

\$995 for non-members - including 'Challenges & Insights' seminar on 28 August

* **Member exclusive:** take \$30 off for second and subsequent delegates from the same company!

Information / items provided

A copy of speaker presentations in PDF format will be provided via cloud link to all delegates after the course along with a pen, notepad and attractive shoulder satchel. Welcome coffee, morning and afternoon teas and a hot buffet lunch will be provided.

Cancellation policy

All cancellations must be made in writing to the Aerosol Association. If a cancellation is received by 13 August 2025, a full refund will be made, less a \$50 administration fee. If received after this date, no refund will be payable, however substitutes are welcome.
