Uncertain about your aerosol labelling and regulatory requirements? What about your obligations under Australian consumer law? Want to increase your knowledge of current aerosol packaging, flammability classifications, manufacturing and waste management?

Then the Aerosol Association of Australia's one-day
MASTERING AEROSOL COMPLIANCE FOR INDUSTRY PROFESSIONALS
Training Workshop is for you!

This intensive one-day workshop brings together leading industry experts to deliver practical, up-to-date guidance on Australian aerosol regulations, consumer law obligations, flammability classification, packaging reform, manufacturing considerations and waste management.

We are pleased to welcome several expert speakers including:

- David Cadogan-Cowper (Ensign Laboratories)
- Marlene Cronje-Vermeulen (APCO)
- Tyrone Hecceg (Falcon Test Engineers)
- Karl Szewczyk (PAX Australia)
- Michael Oxman (CleanEra)

Make sure you don't miss this unique opportunity to be informed and updated on the latest regulations and requirements impacting our industry!

Workshop Programme:

Our experienced industry speakers will cover the following topics:

- **David Cadogan-Cowper (AAA President and Product Realisation Manager - Ensign Laboratories)**
 - ✓ **Introduction and Review of the Latest Aerosol Industry Challenges** – Aerosol standard update, key issues facing the industry globally, why compliance is important.
- **Gary Bowman (Executive Director AAA)**
 - ✓ **Aerosol Labelling & Registration** – Labelling compliance and data requirements for regulated and non-regulated aerosols. Australian consumer law obligations.
- **Marlene Cronje-Vermeulen (Packaging Technology Manager - APCO)**
 - ✓ **Aerosol Packaging** – Preparing for major packaging reform including the impact of an EPR scheme. ARL update, review of recycling and recyclable content targets (metals), circular economy and the role of aerosols.
- **Tyrone Herceg (Lead Test Engineer - Falcon Test Engineers)**
 - ✓ **Flammability Testing** – Mandatory vs voluntary test requirements. Test methods and testing facilities (UN standards plus others), impact on product classification and labelling.
- **Karl Szewczyk (Engineering Manager - PAX Australia)**
 - ✓ **Manufacturing Safety Considerations** – General manufacturing safety with relevance to aerosols. WHS updates, safety risk assessments (process and products), warehousing & transport safety.
- **Michael Oxman (Waste Management Expert - CleanEra)**
 - ✓ **Aerosol Waste Considerations** - Regulations for managing waste aerosols, EPA requirements relating to containment and emissions, handling and disposal of large volumes of faulty or recalled aerosols
- **Gary Bowman (Executive Director AAA)**
 - ✓ **Recalls Procedure** – What to do in the event of a recall, mandatory obligations, regulated vs non-regulated products, risk and cost mitigation measures.

Who should attend?

The Workshop is intended for anyone working with aerosols in an **operations, laboratory, regulatory, account management or technical** role. It is ideal for those who are relatively new to the industry, are technical specialists in their organisation or who wish to update their knowledge of aerosol product compliance.

Workshop venue:

The workshop will be held on level 24 of the Macquarie University City Campus 'Angel Place' building, 123 Pitt St (corner of Angel Place and Pitt St), Sydney, NSW 2000. Close to the Martin Place metro station and Wynyard train station, our venue for 2026 offers state-of-the-art presentation technology and networking facilities.

Workshop Fees (incl. GST):

Association members:

Association non-members:

Member exclusive: \$50 off each delegate for two or more delegates from one company!

Early bird
(by 20 July)

Standard
(by 7 Aug)

\$575

\$600

\$850

\$900
